Regarding Photo-Simulations for:

Site Name: **CSL04615**

January 29, 2024

To Whom It May Concern:

The submitted photo-simulations were produced employing proprietary methodology and software utilized by Artistic Engineering, Inc. Various onsite and photo conditions were recorded to assist, along with the submitted plans, in generating a CAD model (digital mockup) of both the existing and proposed designs for the purpose of creating an accurate photographic depiction of the proposed site design. The photo-simulations are a digital representation of the proposed design for the site named **CSL04615**, based on the 100% zoning plans dated **01/12/24** and any other information provided to Artistic Engineering by project applicant at time of the requested work, based on photographs originally shot on 12/21/23.

In no event will Artistic Engineering Inc. be held liable for any loss of profit or any other commercial and/or public damage including, but not limited to, special; incidental; consequential; or other damages resulting from the use of the provided information or data.
