Subject: mobility draft

HI!

I'M SORRY I MISSED THE MEETING FOR THE DISCUSSION OF THIS IMPORTANT CONCEPT.

AS I READ THE REPORT THERE WERE ONLY Two COMMENTS I HAD.

1. Main Street with a meridian with with trees ect will always be a problem in the winter time due it's North South orientation for ice in the shady areas. This will certainly add to the cost of safely maintaining it in the Winter time.
2. The concept of a gondola has merits but there are far more visitors in the Spring, Summer and Fall that visit Mammoth and I think it would degrade the view into town for those visitors.

I think, like always, that the financing will be a challenge.

Your work on this project is appreciated.

Sincerely,

Richard McAteer
